Dr. Simon Bloom, of 211 East Broad-

The couple met when they were both employed in as sweatshop, and Mrs. Yesterday my doctor rec ommended open air as an aid to my failing nerves, and now I must say that I am indeed glad of his recommendation.

For seven years, said Dr. Bloom, Miss Mowitz importuned him to marry her, and besides threatening him with a revolver, also came to his office and tried to persuade him with a hatchet. The weapon was in court yesterday.

Dr. Bloom said that his present wife knew that he was married and she even bore the expense of the divorce, which the doctor's first wife obtained from him in Nyack. Three days after the divorce, said Dr. Bloom, he married the defendant, on account of the threats she made.

Catteine-treed COFFEE A TON SUBSTITUTE

The Danger of Caffeine in Ordinary Coffee

Woods Hutchinson points out that, for some curious reason, the habit has grown upon us of taking a large part of our daily six glasses of water in the form of mixtures known as beverages.

Breakfast beverage inebriates are multiplying faster than our native population, and this condition is becoming a real menace.

Since the feeling of well-being and comfort produced by coffee after a full meal is explained by the local action of the volatile oil in the stomach, why not get the same effects by drinking Kaffee HAG and avoid the dangers of the subtle drug caffeine which will, sooner or later, react on heart, stomach

and nerves? Wouldn't it be better to begin to-

day to drink Kaffee HAG? In the bean only, 25c a package All dealers
